Stone Age Note Guide

- The _______ _______ is divided into three time periods:
  - _______  (~2,000,000BCE - ~10,000BCE)
  - _______  (~10,000BCE - ~6,000BCE)
  - _______  (~6,000BCE - ~3,000BCE)

- Define: Paleo -

- Define: Lithic -

- During the ________________ Stone Age, early humans developed:
  - _______ tools/weapons
  - ________________

- Early humans also _______ around the _________ during this time period

- Define: Mesolithic -
  - Use of bow and arrow, ____________, spears
  - Tamed _________

- Define: Neolithic -
  - Define: Agricultural Revolution –
    - The beginnings of _________ and permanent _________

- Define: Hominids -

- Australopithecus
  - Lived over ________________ million years ago
  - First group to be different from the _________________________
  - ________________ belonged to this group

- _____________ Man - Homo Habilis
  - First true ________________
• First to make ______________________
  o Used campfires, but did ____________ know how to make ____________
• ________________ Man - Homo Erectus
  o First to have _____________ making skills
  o Moved around during the ________________ ________________
  o ________________ Man belonged to this group
• ________________ Man - Neanderthals (Neandertals)
  o May have suffered from ________________
  o Buried ________________ with ceremonies
  o No one knows about their ________________
• ________________ Humans - Cro-Magnon Man
  o Built small _____________ and “___________ huts”
  o Created ________________ and ________________
  o Created magnificent cave ________________
• Define: Hunter-gatherer -
• Hunter gatherers were ________________
  ▪ Define: Nomad –
Stone Age Note Guide*

• The ____________ _________ is divided into three time periods:
  o ________________ (~2,000,000BCE - ~10,000BCE)
  o ________________ (~10,000BCE - ~6,000BCE)
  o ________________ (~6,000BCE - ~3,000BCE)

• __________ - Ancient (Old)

• __________ - Stone

• During the ________________ Stone Age, early humans developed:
  o __________ tools/weapons
  o ______________

• Early humans also __________ around the world during this time period

• ____________ - “Middle” “Stone”
  o Use of bow and arrow, ____________, spears
  o Tamed __________

• ____________ - “New” “Stone”
  o ________________ ______________ – Hunter-gatherers settle down and begin farming
  o The beginnings of __________ and permanent dwellings

• ____________ - Early humans that walked upright

• Australopithecus
  o Lived over ________________ million years ago
  o First group to be different from the ________________
  o ________________ belonged to this group

• ____________ Man - Homo Habilis
First true _________________________
First to make ______________________
Used campfires, but did ______________ know how to make fire

- ______________ Man - Homo Erectus
  - First to have _____________ making skills
  - Moved around during the _______________ Age
  - ______________ Man belonged to this group

- ______________ Man - Neanderthals (Neandertals)
  - May have suffered from ______________________
  - Buried ______________ with ceremonies
  - No one knows about their _________________________________

- ______________ Humans - Cro-Magnon Man
  - Built small ____________ and “long huts”
  - Created ______________ and arrow
  - Created magnificent cave ____________________

- ______________ — Lived by hunting animals and gathering plants

Hunter gatherers were ______________
  - ______________ — Someone who moves around a lot, following food
Stone Age Note Guide**

- The Stone Age is divided into three time periods:
  - Paleolithic (~2,000,000BCE - ~10,000BCE)
  - Mesolithic (~10,000BCE - ~6,000BCE)
  - Neolithic (~6,000BCE - ~3,000BCE)
- The dates are different in different regions of the world
  - Example: Asia might be in the Mesolithic while North America might still be in the Paleolithic
- Paleo - Ancient (Old)
- Lithic - Stone
- During the Paleolithic Stone Age, early humans developed:
  - Stone tools/weapons
  - Language
- Early humans also migrated around the world during this time period
- Mesolithic - “Middle” “Stone”
  - Use of bow and arrow, fishhooks, spears
  - Tamed dogs
- Neolithic - “New” “Stone”
  - Agricultural Revolution – Hunter gatherers settle down and begin farming
  - The beginnings of houses and permanent dwellings
- Hominids - Early humans that walked upright
  - Our ancestors
- Australopithecus
  - Lived over three million years ago
  - First group to be different from the apes
  - Called hominids
  - Lucy belonged to this group
- Handy Man - Homo Habilis
  - First true humans
  - First to make tools
  - Used campfires, but did NOT know how to make fire
• Upright Man - Homo Erectus
  o Probably the first to hunt
  o First to have fire making skills
  o Moved around during the Ice Age
  o Peking Man belonged to this group
• Wise Man - Neanderthals (Neandertals)
  o May have suffered from arthritis
  o Advanced hunters
  o Buried dead with ceremonies
  o No one knows about their disappearance
• Modern Humans - Cro-Magnon Man
  o Built small huts and “long huts”
