

Copy the following questions and use the 10 minute video on *Darwin's Discoveries* to help “discover” the answers.

- 1) In what year did Charles Darwin begin his research on the Galapagos Island?**
- 2) In 1859, Charles Darwin published his theory on evolution in a book. What was the name of this book?**
- 3) What adaptation helps the male booby (it's a bird) attract a mate?**
