

Warm Up

Nurse Nyla accidentally removed the wrist tags of 3 babies in the maternity ward. She needs to figure out which baby belongs to which parents. She drew blood from each of the babies and compared the results to the blood types on record for the parents. Using the chart below, match the baby to its correct parents. Draw 3 Punnett Squares to show each cross.

Parent	Blood Type
Mr. Harting	O
Mrs. Harting	A
Mr. Simon	AB
Mrs. Simon	AB
Mr. Kaul	O
Mrs. Kaul	O

These are not newborn baby images.
