How do you load Exam View Test Bank questions into BlackBoard Learn?

First you will have to install Exam View using an external hard drive onto your computers.

You now will select which chapter you would like to load into your test bank. I am going to select "Chapter 1 The Science of Biology" I have to click on it for it to drop down into the lower window. You will need to choose "Select".

Chapter 1 The Science of Biology
MULTIPLE CHOICE
<ol> <li>Which of the following is NOT a goal of science?         <ul> <li>to investigate and understand the natural world</li> <li>to explain events in the natural world</li> <li>to establish a collection of unchanging truths</li> <li>to use derived explanations to make useful predictions</li> </ul> </li> </ol>
ANS: C PTS: 1 DIF: L2 REF: p. 5 OBJ: 1.1.1 State the goals of science. TOP: Foundation Edition BLM: knowledge
<ol> <li>Science differs from other disciplines, such as history and the arts, because science relies on         <ol> <li>facts.</li> <li>testing explanations.</li> <li>observations.</li> <li>theories.</li> </ol> </li> </ol>
ANS: B PTS: 1 DIF: L3 REF: p. 5 OBJ: 1.1.1 State the goals of science. BLM: evaluation

If you want ALL questions, click on the empty box in front of the "Chapter 1 The Science of Biology", it will select all questions. Let's say you teach a chapter where you only teach one of the sections. Each question gives you references of page numbers and sections. You could just select the questions that you will need for your assessments.

I chose all. It will look like this.

We want to select "Tests, Surveys, and Pools".

## Tests, Surveys, and Pools

### Tests

Tests are sets of questions that are graded to measure student performance. Once a test is created here, it must be deployed within a content folder before students can take the test. Test results are reviewed in the Grade Center. Note that some question types are not automatically graded.

#### Surveys

Surveys are not graded, and student responses are anonymous. They are useful for gathering data from students that is not used to evaluate student performance. Surveys must be deployed in a content folder for students to respond to the survey.

#### Pools

Pools are sets of questions that can be added to any Test or Survey. Pools are useful for storing questions and reusing them in more than one Test or Survey.
